93 Worth Unveils Amenities With New Ground-Floor Wrapping

New development 93 Worth Street is a big tease. First it put up some signage, then it shared some prices, and now the retail windows are wrapped in info about the amenities, fixtures, and interiors. There are tiny teaser renderings, too—have a look above and below. The amenities include: children's playroom, dog washing station, bike storage, and BBQ station. Prices for the 92 units will fall between \$1,250 and \$2,000 per square foot, and one of these days they'll actually be for sale.
